# ERICK MANRIQUE

## SOFTWARE ENGINEER

---

Hollywood, Florida

| [erickmanriqpro@gmail.com](mailto:erickmanriqpro@gmail.com)

| (646) 755 - 4316

### PROFILE

#### Skills

• Full-Stack  
React (MERN)

• Ruby on Rails

• JavaScript

• CSS (Flex/  
Grid)

• Team-Oriented  
Leadership

• Problem Solving

• Agile Software  
Development

• Debugging

• Communication

• Versatile &  
Organized

Leveraging 4 years of experience in hospitality to elevate intuitive user experience & interactions on the web. Very eager to develop programs for real-world application within a tech environment. Optimistic problem-solver with a passion for learning.

### ENGINEERING PROJECTS

**Home.io** - Conceptually forked from the iPhone widget screen, **home.io** gives signed-up users access to a personalized home screen rendering data from up to 7 API's. *Made with vanilla CSS, JS, HTML, & the DOM.*

**iNetwork** - A live with functioning CRUD through AirTable to store & upload data. Data is then used to fill in a "virtual business card," as a casual alternative to the formal resume. *Utilizes React with JS, AOS, & Bootstrap.*

**Dignified Winers** - Dignified Winers was collaboration between 4 talented developers & conceived as a request by a mock-client; a luxury magazine featuring ranked wines while allowing users to sign up & contribute. *Developed with the MERN Stack, aided by Insomnia, Heroku, & Netlify.*

### EXPERIENCE

**GG'S WATERFRONT BAR & GRILL**  
SERVER'S ASSISTANT)

(FOOD RUNNER / BARBACK /

• Demonstrated excellent operational & customer-facing skills in multiple roles, regardless of volume

• Fast-paced environment increased aptitude for team-based work flow management while reinforcing my own tenacious pursuit of maintaining high standards.

### EDUCATION

**GENERAL ASSEMBLY** (CERTIFICATE OF COMPLETION - SOFTWARE ENGINEERING IMMERSIVE)

Full-time fellow in the Software Engineering Immersive program that includes over 400 hours of professional training over 12 weeks. Utilizes Hands-on approach to design and build web applications with full CRUD functionality through:

*JavaScript, React, Express, SQL, PostgreSQL, HTML, CSS, Ruby, Rails, & Sequelize*
